EDUCATION

Cornell University, College of Engineering 2021 - 2025
Bachelor of Science, Information Science, Systems, and Technology (ISST), May 2025
Member of *Der Hexenkreis Senior Honors Society* [DH]

WORK EXPERIENCE

Technology Specialist Sep 2025 - Present
Boynton Beach Chamber of Industry & Commerce Boynton Beach, FL

- Built a Node.js SMS script and deployed it in Twilio Studio, enabling mass texting for a realtor client.
- Managed website content, event updates, and backend CMS tasks to improve engagement and functionality.
- Implemented SEO best practices across pages and newsletters to increase visibility.

Executive Intern Dec 2024 - Present
RM Logitech Inc Palm Beach County, FL

- Currently building an Amazon-style eCommerce site to showcase and sell the client's tech products.
- Advised RML clients on digital strategy, mobile app development, and technical support offerings.
- Assisted in modernizing internal workflows through research, documentation, and digital tool integration.
- Applied technical skills to support ongoing IT initiatives, product insights, and operations.

UI/UX Intern Jun - Sep 2024
Truth In Common Washington, D.C.

- Refined website navigation using UX principles to improve content placement, user experience, and SEO.
- Generated 5+ wireframes based on competitor research and user feedback.

Digital Media Startup/Pre-Seed Founder Jan 2022 - Present
ShotbyALL Ithaca and New York City, NY

- Launched my digital media brand "ShotbyALL", scaling revenue from \$500 in 2022 to \$5,000+ in early 2025.
- Completed 200+ paid sessions across graduation, portrait, and event photography projects.

Teaching Fellow Jun - Aug 2020
All Star Code New York, NY

- Coached students in web animation, game design, and core front-end languages like JavaScript, CSS, and HTML.

PROJECTS

Creator & Developer, [BlobberTrack \(Beta\)](#)

- Built a real-time browser-based motion tracking and video effects engine using Next.js, P5.js, and the WebGL API, with ongoing development of an in-platform photo-to-video AI generator.
- Designed the system as the foundation for a broader AI-powered creative suite, extending beyond tracking into automated video transformation and generative workflows.
- Through development, I gained experience working with agentic coding systems, implementing secure client-side AI pipelines, and optimizing performance for real-time, compute-intensive web applications.

UI/UX Designer, [Paath](#)

- Led UI/UX and wireframing for a budgeting app, helping students track expenses and build financial literacy.

UI/UX Designer, [KareBare](#)

- Led UI/UX of virtual chatbot to improve social media literacy and promote healthy online interactions for young users.

Front-end Developer, [Cornell Music Production](#)

- Maintained and improved the Cornell Music Production Club's website using server side PHP, HTML, JavaScript.

TECHNICAL SKILLS

- Programming: JavaScript, Python, TypeScript, Go, HTML, CSS, SQL, Git, OCaml
- Frameworks & Libraries: React, D3, P5.js, Next.js, Bootstrap, NumPy, Pandas

DESIGN SKILLS

- UI/UX Design: Wireframing, Prototyping (Figma), Interaction Design, Gaming Design, Spline API
- User Research & Testing: Usability Testing, User Surveys, Feedback Analysis, Agile

LEADERSHIP & PROFESSIONAL DEVELOPMENT

Management Leadership for Tomorrow Fellow (MLT) Mar 2023 - Present
• Career preparation program focused on professional development.

Human Spirit Award (Entrepreneurship @ Cornell University) Dec 2023 - May 2025
• Earned the 2023-2024 Human Spirit Award for my entrepreneurial efforts with my digital media startup.

Cornell Traditions Fellow Aug 2021 - May 2025
